2019 SPONSORSHIP

INDIANA'S INNOVATION NETWORK

Centric® is a 501c3 nonprofit that connects, educates and celebrates Indiana's innovators. We are for the curious, the playful, the people who look for a better way. We are the ones who plant a seed for a new way to work. We are cross-sector, from all walks, and we know our intersections make us stronger.

Centric exists to increase the recognition of Indiana as a global center of innovation. We achieve this by equipping individuals and organizations with the creative and critical thinking skills needed to drive innovation forward.

From our initial gatherings in 2007, we have built an incredible community of people and companies that spans industries and creates serendipity that may never occur otherwise.
